

Understanding Wipers

Importance of Wipers

Wipers are essential parts of the manufacturing environment. They are used in practically every aspect of a facility's production, equipment maintenance and housekeeping operations, as well as for personal cleaning. In many applications, wipers are indispensable "tools" in performing a particular task. Therefore, the proper selection and use of wiping systems can have a dramatic effect on a facility's productivity, safety, regulatory compliance and cost-effectiveness.

Fulfilling Customers' Needs

Most wipers used by industrial facilities leave much to be desired in terms of their overall impact on productivity, safety, regulatory compliance and cost-in-use.

- Using inadequate wipers which are not engineered for the specific task being performed, affects job quality and worker productivity.
- Incorrect wiping procedures, especially those involving potentially hazardous chemicals, can cause serious personal injuries in the workplace.
- Most wiping operations cost more in total than they should. This includes both excessive material cost (e.g. percentage of usable rags, cost of disposal and storage space) and inadequate performance associated with using for an application for which it has not been especially engineered.

WYPALL* X Wipers are made from patented HYDROKNIT* material.

HYDROKNIT* is our most advanced wiper material. It's manufactured using jets of water to bond soft absorbent paper to extra-strong non-woven fabric. The result: fast absorption, outstanding tear-resistance, and exceptionally high performance on any tough task.

WYPALL* L Wipers and WYPALL* X Wipers are manufactured under HACCP environments.

WYPALL* L Wipers and WYPALL* X Wipers are manufactured in HACCP certified conditions.

The Hazards Analysis Critical Control Points (HACCP) Certification ensures our Food Service products are ideal for use in food preparation and manufacturing environments, which is a preventive system to ensure the safe production of food

Advantages of Disposable Wipers

Wipers VS Rags

- Free from contaminants
- Uniform quality, size and material
- Specifically & technically engineered for the task
- Dispensing is easy and controlled
- Packed in carton boxes, easier to store
- Advantage over rags in productivity and cost*

- Not absorbent, synthetic fiber content
- Inconsistent size and quality
- Colour bleeds (smearing of dye from fabric)
- Least effective in performance vs. total cost
- Higher risk of personal injury
- High hidden cost (% of usable rags, storage and disposal cost)
- High in lint
- Non-hygienic
- Bulky

*Note: for further information, please contact our sales professionals.

Our Promise

The right wiper equals the right wiping system for the job.

For everything from the most delicate task to the toughest clean-ups, Kimberly-Clark Professional* has the wiper you need and the most convenient method of dispensing it.

GUARANTEED SATISFACTION

We take great pride in guaranteeing that every product we sell lives up to your expectations.

– "No Questions Asked". It's the same honest guarantee that we made more than 140 years ago and it's still good today.

These solutions include:

The right tools for the job

- Wiping materials with the precise mix of performance characteristics, such as strength, absorbency, durability, lint level and chemical compatibility, which the customer needs to perform different tasks.
- Dispensing systems that protect the wiping material from contaminations save time by conveniently providing clean wipers on demand and save money by reducing waste and pilferage.

Enhanced personal protection

- Training personnel in the correct use of wipers, for the customer's key personnel and employees.
- Innovation in products that help protect personnel through improved packaging and housekeeping.

Regulatory compliance

- Thorough products and systems that help facilities comply with Occupational Safety & Health Administration (OSHA), Environment Protection Agency (EPA), US Department of Agriculture (USDA), Food & Drug Administration (FDA), Resort & Commercial Recreation Association (RCRA) and Hazard Analysis Critical Control Points (HACCP) guidelines.

Cost control

- Providing the customers with the most efficient and effective wiping systems for their specific needs, that simplifies wiping procedures and saves money on labour, wiping material and chemicals.

WYPALL* L Wipers

L10 - L30 Wipers

WYPALL* L10 Jumbo Roll Wipers

General duty / High volume / Economical wipers

On the factory floor, in garages or wherever continuous supply of wipers are essential to efficiency, WYPALL* L10 Jumbo Roll Wipers solves the problem with long standing rolls for general wiping tasks and single use applications.

WYPALL* L10 Jumbo Roll Wipers combine utility with economy.

Features:

- Strength and durability for general clean-up tasks
- High volume, economical and multi-purpose wiper
- Outstanding absorbency reduces usage

WYPALL* L10 Jumbo Roll Wipers are manufactured in HACCP certified conditions

TYPICAL USES:

- General manufacturing areas
- Automotive plants
- Workshops and garages
- Mechanical services
- Food processing plants
- Laboratories

Description	Solvent Resistance	Absorption Capacity	Wet Strength	Absorption Rate

Floor Mounted Stand	88731	Black	1 	

WYPALL* L10 Centreflow Wipers

Single-ply construction for high-capacity absorbency

WYPALL* L10 Centreflow Wipers are manufactured in HACCP certified conditions

An industrial clean-up system that protects wipers from dirt and moisture while it guards against high maintenance costs. WYPALL* L10 Centreflow Protector System is specially designed for use in tough working environments, which is why the dispenser is made of strong ABS plastic. Accommodating centreflow wiper rolls up to 600 wipers each, its jumbo-capacity dispenser minimises the need for restocking; cutting maintenance time and costs.

Features:

- **Strength and durability for general clean-up tasks**
- **Economical and multi purpose**
- **Outstanding absorbency reduces use**
- **Closed system reduces contamination on wipers**

TYPICAL USES:

- **General manufacturing areas**
- **Food service areas**
- **Food processing plants**
- **Laboratories**
- **Lodgings**

WYPALL* L10 Roll Control Wipers

Roll Control means cost control

WYPALL* L10 Roll Control Wiping System is the ideal wiping solution for many of today's businesses particularly those in the manufacturing, food processing, hospitality and healthcare sectors due to its high versatility and HACCP certified wipers.

A technically advanced wiper roll, which combined with our specially designed Z-shaped dispensing channel, results in a unique roll control system. This breakthrough technology with its innovative off-set perforated roll delivers single sheet at every pull, virtually eliminating waste.

Features:

- Cost savings from one-at-a-time sheet dispensing
- Reduced waste from minimised streaming
- Increased hygiene as hands touch only the wiper used
- HACCP certified wipers are safe for food contact
- Water resistant dispenser
- Disposable wiper is suitable for any form of wiping

TYPICAL USES:

- Food service areas
- Food processing plants
- Lodgings
- Grocery outlets
- Manufacturing plants
- Healthcare

WYPALL* L30 Wipers

Multi-ply construction for high-capacity absorption

WYPALL* L30 wipers are better than ever for cleaning messes. WYPALL* L30 Wipers offer a lighter weight wiper at a great everyday price. With one smooth side and one textured side, WYPALL* L30 Wipers absorb as they clean. Value and performance - WYPALL* L30 will do a million wiping task daily.

Features:

- Textured side for cleaning power
- Wipes cleanly, contains no binders or glue
- Multi-ply capacity for wiping off large spills
- Versatile, highly absorbent wipers that leave surface clean and dry

TYPICAL USES:

- Light duty clean-ups
- Janitorial and maintenance wiping
- Process line wiping and cleaning
- Single use parts and tools clean-ups
- Hydraulic leak soakers and wiping
- Conveyor and roller cleaning
- Retail store maintenance and cleaning

WYPALL* Wipers

Versatile Wipers

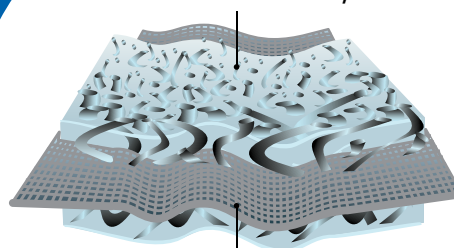

HYDROKNIT* Fast Absorbing Material

HYDROKNIT* is an exclusive patented technology of Kimberly-Clark. The HYDROKNIT* Fast Absorbing Materials are made with water jets which entangle soft absorbent paper fibers with extra strong polypropylene non-woven fabric to increase absorbency and durability.

This innovative material features superior durability for better cost and work efficiency. Its rapid absorption rate enables efficient cleaning while low lint creates a streak-free finish.

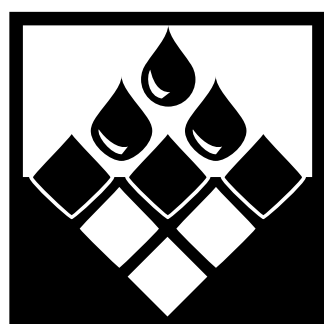

Versatility is also a key benefit as the HYDROKNIT* material can be used across various industries. These include healthcare, food service outlets, food processing plants, automotive industry, aviation, general manufacturing and lodgings.

Softness and Absorbency Fibers

Reinforced Fabric For Strength and Durability

HYDROKNIT*
FAST-ABSORBING MATERIAL

WYPALL* X60 Wipers

Versatile. Economical. Hygienic.

WYPALL* X60 Wipers bring the absorbing power of our HYDROKNIT* Technology to a lighter-weight wiper. Outstanding yet versatile, its durable enough to handle general cleaning tasks while absorbent enough to be used for personal wiping. WYPALL* X60 Wipers work as a single use wiper to help improve hygiene and reduce the risk of cross-contamination in your workplace.

Features:

- Made from HYDROKNIT* Fast Absorbing Material
- Strong wiper construction ensures longer lasting performance, maintaining strength wet or dry
- Single-use, highly absorbent wiper minimises the risk of cross-contamination
- Extremely soft and gentle in texture; especially when wet, making the wiper suitable as a personal wash cloth
- Versatile and economical, delivering a balance between performance and value
- No adhesives or binders, leaves nothing behind
- Efficient and hygienic dispensing systems allow easy access to wipers for immediate use, while ensuring that individual wipers are hygienically dispensed
- Available in Quarter Fold, POP-UP* Box and Jumbo Roll formats

TYPICAL USES:

- Applying thinners and solvents
- Cable lubricant removal
- Adhesive cleaning
- Removing grease and oil in tight areas
- Autoclaved for Healthcare applications
- Personal wiping in Healthcare
- Wiping surfaces
- Absorbing spills
- General cleaning

WYPALL* X70 Wipers

Exceptional performance. Strong. Durable.

WYPALL* X70 Wipers have what it takes to take on those tough jobs. Count on WYPALL* X70 Wipers for long lasting performance that extends usage and reduces waste, while helping to improve hygiene.

Absorbs more Water and Oil Faster Than Rags

Features:

- Made from **HYDROKNIT*** Fast Absorbing Material
- Strong and bulky — ideal for tough jobs such as cleaning grills, ovens or machinery
- Maintains strength (wet or dry) for long lasting, cost-effective performance
- Durable — can be used for a specific task during an entire shift
- Does not contain any adhesives or binders, leaves nothing behind
- Every wiper is identical in size, shape and quality, and hygienically clean, which means you get consistent performance every time
- Available in Quarter Fold and Flat Sheet format

WYPALL* X70 Wipers are manufactured in HACCP certified conditions

HYDROKNIT*
FAST-ABSORBING MATERIAL

TYPICAL USES:

- Cleaning surfaces and tools
- Heavy-maintenance wiping
- Wiping metal shavings
- Wiping up liquid spills
- Absorbing oil, grease and water
- Cleaning sinks, grills and ovens
- Replacing tea towels
- Cleaning stainless steel surfaces
- Polishing surfaces

WYPALL* X80 Colour-Coded Wipers

Colour-coded wipers for prevention of cross-contamination

The best versatile and extended-use wiper. A high performance range ideal for clearing away spills and cleaning-up. Essential where health and safety are vital.

The wipers are ultra-absorbent, tear-resistant and hard wearing, so they last longer and you can rinse-out and re-use. The sheet-by-sheet dispensing controls usage. The superior wiping performance and 100% usage of each wiper offers you greater value through lower cost-in-use.

WYPALL* X80 Wipers offer consistency and durability for repeat use. Made from unique non-woven HYDROKNIT* Fast Absorbing Material.

Features:

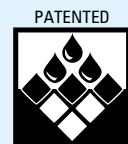

- Different colours for different areas and applications, prevent cross-contamination effectively
- Made of HYDROKNIT* Fast-Absorbing Material, absorbs liquid, oils and spills faster and better
- Tough enough for extended use and reusable
- Cloth-like comfort for more effective clean-up
- 25-sheet poly-wrapped for more hygienic and convenient wiping
- Essential product for HACCP-compliant industries

TYPICAL USES:

- Heavy-duty machines & parts wiping
- Prepping surfaces with solvents
- Cleaning rough surfaces
- Kitchen preparation and cleaning
- Foodservice general cleaning
- Healthcare segregation for hygienic application
- Heavy-duty wiping for any application, absorbing more oil and water

WYPALL* X80 Colour-Coded Wipers are manufactured in HACCP certified conditions

WYPALL* Microfibre Cloths with MICROBAN® Antimicrobial Product Protection

Efficient & hygienic cleaning solution

**The only
Microfibre
Cloth with
MICROBAN®**

Efficient & hygienic cleaning solution for hotels and office buildings.

WYPALL* Microfibre Cloths with MICROBAN® Antimicrobial Product Protection are designed with the cleaning professional in mind. WYPALL* Microfibre Cloths help you to clean smarter, while inhibiting the growth of stain and odour-causing bacteria on the cloths. They are also environmentally friendly cleaning options that can be used without chemicals.

Efficient & hygienic cleaning solution

- the cloth lifts and traps dirt from surfaces for fast and efficient cleaning
- no chemicals required – helps reduce annual cleaning cost
- absorbs & retains up to 8 times its weight in liquid – efficient cleaning
- can be washed up to 300 times for better cost control
- available in 4 different colours - enables task segregation and helps to reduce cross contamination
- green cloth has smooth texture for glass and mirror cleaning
